

Barrel Helsinki 340

Option1: panorama 1/2 window

Option2: panorama window

Beste klant,

Hartelijk dank voor de aankoop van onze Puro barrel sauna Helsinki.

We zijn verheugd dat u voor Puro hebt gekozen en zijn er van overtuigd dat u zult genieten van de vele voordelen die onze sauna barrel biedt.

Deze Barrel is door onze medewerkers met de grootste zorg gefabriceerd.

Wij hopen dat u tevreden bent van onze service en de kwaliteit van onze producten, mond-tot-mond reclame en sociale media zijn voor ons erg belangrijk. Ons verzoek is dan ook: bent u tevreden zeg het verder en volg ons op FB en Instagram .

Mocht u vragen hebben over de installatie of het gebruik van uw sauna, aarzel dan niet om contact op te nemen met de winkel waar u de barrel kocht, ons team staat altijd klaar om uw te helpen, of mail naar info@purowellness.be .

Voor dat u begint met de opbouw, verzoeken wij u vriendelijk van de montagehandleiding aandachtig door te nemen! Dit zorgt voor een soepel en efficiënt installatieproces.

Aanbevelingen:

Bewaar het bouwpakket van de sauna tot de volledige montage op een droge plaats, beschermd tegen weersomstandigheden (vocht, zon, enz.). Bewaar het pakket ook niet in een verwarmde ruimte!

Bij het selecteren van de locatie waar u de Sauna zal installeren, zorg ervoor dat hij niet wordt blootgesteld aan extreme weersomstandigheden (gebieden met sterke sneeuwval of wind), anders moet u Barrel sauna aan de ondergrond bevestigen.

Plaats de barrel niet onder een boom of vochtige omgeving, de keuze van de locatie helpt bij de levensduur van uw cabine .

Wij raden aan om de sauna aan de buitenzijde met regelmaat een behandeling te geven tegen weersinvloeden. Wij behandelden de cabine reeds 1x met een beschermolie in onze fabriek voor u , als extra service geven wij graag een bidon van 2.5l beschermmiddel gratis waarbij u de cabine aan de buitenzijde al een extra keer kunt behandelen .

We wensen u veel plezier en warme momenten toe.

Puro team

Dear customer,

Thank you very much for purchasing our Puro barrel sauna Helsinki.

We are delighted that you have chosen Puro and are convinced that you will enjoy the many benefits that our sauna barrel offers.

This Barrel has been manufactured with the greatest care by our employees.

We hope that you are satisfied with our service and the quality of our products, word of mouth and social media are very important to us. Our request is therefore: if you are satisfied, tell others and follow us on FB and Instagram.

If you have any questions about the installation or use of your sauna, do not hesitate to contact the store where you bought the barrel, our team is always ready to help you, or email info@purowellness.be.

Before you start building, we kindly request that you carefully read the assembly manual! This ensures a smooth and efficient installation process.

Recommendations:

Store the sauna kit in a dry place until fully assembled, protected from the elements (moisture, sun, etc.). Do not store the kit in a heated room!

When selecting the location where you will install the Sauna, make sure that it is not exposed to extreme weather conditions (areas with heavy snowfall or wind), otherwise you will have to attach the Barrel sauna to the ground.

Do not place the barrel under a tree or a damp environment, the choice of location helps with the lifespan of your cabin.

We recommend that you regularly treat the outside of the sauna against the elements. We have already treated the cabin once with a protective oil in our factory for you, as an additional service we are happy to provide you with a 2.5l bottle of protective agent free of charge, with which you can treat the outside of the cabin an extra time.

We wish you lots of fun and warm moments.

Puro team

Cher client,

Merci beaucoup d'avoir acheté notre sauna baril Puro Helsinki.

Nous sommes heureux que vous ayez choisi Puro et sommes convaincus que vous apprécierez les nombreux avantages qu'offre notre tonneau de sauna.

Ce fût a été fabriqué avec le plus grand soin par nos collaborateurs.

Nous espérons que vous êtes satisfait de notre service et que la qualité de nos produits, le bouche à oreille et les réseaux sociaux sont très importants pour nous. Notre demande est donc la suivante : si vous êtes satisfait, faites passer le message et suivez-nous sur FB et Instagram.

Si vous avez des questions sur l'installation ou l'utilisation de votre sauna, n'hésitez pas à contacter le magasin où vous avez acheté le tonneau, notre équipe est toujours prête à vous aider, ou envoyez un email à info@purowellness.be.

Avant de commencer l'assemblage, nous vous demandons de bien vouloir lire attentivement le manuel d'installation ! Cela garantit un processus d'installation fluide et efficace.

Recommandations :

Conservez le kit sauna dans un endroit sec, à l'abri des intempéries (humidité, soleil...) jusqu'au montage complet. Ne stockez pas non plus le colis dans une pièce chauffée !

Lors du choix de l'emplacement où vous installerez le sauna, assurez-vous qu'il n'est pas exposé à des conditions météorologiques extrêmes (zones avec de fortes chutes de neige ou du vent), sinon vous devrez fixer le sauna Barrel à la surface.

Ne placez pas le tonneau sous un arbre ou dans un endroit humide, le choix de l'emplacement contribuera à prolonger la durée de vie de votre cabane.

Nous recommandons de traiter régulièrement l'extérieur du sauna contre les influences météorologiques. Nous avons déjà traité pour vous la cabine une fois avec une huile protectrice dans notre usine, en guise de service supplémentaire, nous sommes heureux de vous fournir gratuitement une bouteille de 2,5 l d'agent protecteur afin que vous puissiez traiter la cabine à l'extérieur une fois supplémentaire.

Nous vous souhaitons beaucoup de moments amusants et chaleureux.

L'équipe Puro

Garantie voorwaarden

Uw Puro Barrel heeft een fabrieksgarantie van 2 jaar, zoals hieronder beschreven.

De barrel is gemaakt van hoogwaardig thermohout, mocht u ondanks onze grondige inspectie klachten hebben, neem dan contact op met de winkel waar u dit product kocht.

LET OP: bezorg ons altijd het serienummer van de barrel, deze vind u op de voorzijde rechts onderaan van de cabine.

Wij kunnen klachten alleen beoordelen als u het serienummer van de barrel aan de verkoper doorgeeft!

De garantie dekt niet:

Bijzonderheden van hout als natuurlijk materiaal.

Kleurvariaties veroorzaakt door verschillen in houtstructuur die de levensduur van het hout niet beïnvloeden.

Houten details veroorzaakt door uitdroging (kleine scheurtjes) die de structuur van de barrel niet beïnvloeden.

Dak- en vloerplanken die op hun verborgen oppervlakken enkele niet-geschaafde gebieden of kleurverschillen tonen.

Klachten die voortvloeien uit een ondeskundige manier van installatie van de barrel, of verzakt door een ondeskundig uitgevoerde fundering.

Klachten die voortvloeien uit het aanbrengen van eigen initiatief veranderingen aan de barrel, zoals extra ramen... eigen gekozen kachel

De kachel: zie handleiding kachel.

Warranty conditions

Your Puro Barrel has a 2-year factory warranty, as described below.

The barrel is made of high-quality thermo wood, if you have any complaints despite our thorough inspection, please contact the store where you purchased this product.

PLEASE NOTE: always provide us with the serial number of the barrel, which you can find on the front bottom right of the cabin.

We can only assess complaints if you provide the serial number of the barrel to the seller!

The warranty does not cover:

Special features of wood as a natural material.

Colour variations caused by differences in wood structure that do not affect the lifespan of the wood.

Wooden details caused by drying out (small cracks) that do not affect the structure of the barrel.

Roof and floor boards that show some unplanned areas or colour differences on their hidden surfaces.

Complaints resulting from an unprofessional way of installing the barrel, or subsidence due to an unprofessionally constructed foundation.

Complaints resulting from making changes to the barrel on your own initiative, such as extra windows... own chosen stove....

The stove: see stove manual.

Conditions de garantie

Votre Puro Barrel bénéficie d'une garantie constructeur de 2 ans, comme décrit ci-dessous.

Le fût est fabriqué en thermowood de haute qualité. Si vous avez des réclamations malgré notre inspection approfondie, veuillez contacter le magasin où vous avez acheté ce produit.

ATTENTION : fournissez-nous toujours le numéro de série du canon, qui se trouve en bas à l'avant à droite de la cabine.

Nous ne pouvons évaluer les réclamations que si vous fournissez le numéro de série du fût au vendeur !

La garantie ne couvre pas :

Particularités du bois en tant que matériau naturel.

Variations de couleur causées par des différences de structure du bois qui n'affectent pas la durée de vie du bois.

Détails en bois causés par la déshydratation (petites fissures) qui n'altèrent pas la structure du fût.

Planches de toit et de plancher présentant des zones non rabotées ou des différences de couleur sur leurs surfaces cachées.

Plaintes résultant d'une mauvaise installation du baril ou d'un affaissement dû à une fondation mal construite.

Plaintes résultant de modifications apportées au tonneau de votre propre initiative, telles que des fenêtres supplémentaires... le poêle que vous avez choisi....

Le poêle : voir manuel du poêle.
